**Subject:** Re: Peer Review Schedule

In addition to telling Sheri that we'd made a decision re: panel review of GE's model, I also told her that EPA would be instructing SRA that EPA will not agree to extend the peer review process so that the panel could review GE's model. See my May 11, 2:24 pm email, which I'll forward after this message.

Regarding Bruce's comment about the atmosphere, he doesn't mention that GE sent its modeling work to the panel basically in defiance of what we told them.

Bruce - Doug Fischer gave Sheri our clear and definite decision, and the rationale for it, on May 11th, prior to Cathy Moyik's email to SRA. So Sheri did know we made this decision. Did GE think that while we were giving the company our decision on the issue, we weren't going to convey that decision to our contractor, SRA, so as to close the loop on the question that was left hanging at the end of the peer review meeting and that the panel needed to know the answer to in order to schedule the completion of its work? I just can't fathom that.

Subject: Fw: Peer Review Schedule

[illegible]

EPA and GE did not reach agreement regarding an extension of the peer review schedule. Accordingly, the peer review process will not be extended to provide additional time for the panel to consider GE's forthcoming model. However, it is OK with EPA if the panel believes it needs an additional week or two to complete its review; please let me know if the panel would like the additional time.
